## Open position as AMS scientist at Ionplus, Switzerland

Based on more than 30 years of research and experience, Ionplus develops and builds innovative instruments for radiocarbon sample preparation and Accelerator Mass Spectrometry (AMS).

We are looking to hire an **AMS scientist** in Dietikon (Zurich), Switzerland. This is a permanent full-time position.

### Duties and responsibilities

- Development, improvement and testing of AMS instruments and related instruments
- Commissioning and acceptance testing of AMS instruments around the world
- Conducting customer trainings on AMS instruments
- Customer support und care
- Representation of Ionplus at conferences and conventions
- Writing of scientific publications

### Skills and qualifications

- PhD in physics, preferably ion beam physics or particle physics
- Several years of work experience, preferably with AMS and/or ion beam physics
- Good communication skills
- Very good skills in English. Knowledge of German is an advantage

### What you can expect from us

- Flat hierarchies and open-door policy
- Direct collaboration with all departments
- Working in a young and dynamic company with production facilities in Switzerland
- Projects with renowned research institutions around the world

For further information or to apply for this position, please submit your CV, cover letter and letter(s) of reference to [gemperle@ionplus.ch](mailto:gemperle@ionplus.ch).
